Career Objective

Motivated engineering student seeking opportunities to apply technical knowledge, improve skills, and contribute to real-world projects.

Education

Bachelor of Engineering in Data Science(Pursuing)

Ballari Institute of Technology and Management

CGPA : **9.40**

Pre University

Sri Chaitanya PU College

Percentage : **89.8%**

High School

Ashirvad High School

Percentage : **91.8%**

Technical Skills

- Programming Languages: **C, Python, Java**
- Tools: **VS Code, Git, Overleaf, Claud, Vercel**
- Areas of Interest: **Software Development, AI/ML, Database management**

Projects

Single Axis Solar Tracker

Tech: Python, Flask, TF-IDF, Logistic Regression, SQLite

- Built a web application that classifies weather using TF-IDF features and a Logistic Regression model.
 - Stores submissions and results in a SQLite database and generates a shareable link for each result.
-

BookBridge -Book Buying and Selling Platform

Tech: JavaScript, HTML, CSS, Google Fonts

- A student friendly book market place that connects buyer and seller directly.
- A second hand books and stationary marketplace.

Strengths

Problem-solving, teamwork, communication, leadership quality, and adaptability.
